Klarna's AI did the work of 700 agents.

> 15 months later, it was hiring humans again.

First month of the AI assistant

2.3M

customer chats handled

Two-thirds of all chats.

700

full-time agents' worth of work, per Klarna

Faster. Cheaper. Everywhere.

BEFORE

11 min to resolve

WITH AI

under 2 min

Repeat inquiries down 25%. 35 languages.

Headcount kept falling.

Klarna figures as reported; Dec 2024 is approximate.

"Investing in the quality of human support is the way of the future for us."

> CEO Sebastian Siemiatkowski to Bloomberg, May 2025

The AI stays. The human comes back.

Hiring agents again

Nov 2025: AI work put at

853

full-time equivalents

> Both things are true at once.

Before you automate a job:

1. List the moments that need a human
2. Keep those human
3. Automate the rest
4. Measure how customers feel, not just speed
